

Whittlesea Primary School

BYOD Program

2024/2025

What is it?

- It is a school-based program for years 3-6 where each child has their own personal device that travels between school and home every day.
- Gives immediate, on demand access to online resources
- Allows for a rich adoption of online learning environments such as Office 365, greater opportunities for digital creation and communication.
- Bring Your Own Device - Parents purchase through a designated Portal. Families retain ownership.

Why?

- Immediate and on-demand access to information
- Critical thinking and problem-solving
- Collaboration across networks and leading by influence
- Promotes flexibility and adaptability across digital platforms
- Develops written communication
- Accessing and analyzing information
- Curiosity and imagination

Program Successes

- Students and teachers can quickly adapt to changes in the teaching and learning process
- Teachers continue to provide high quality lessons, facilitate learning through feedback and individualized conferencing
- Record of learning – the online learning platform facilitates a digital portfolio of the student learning which is shared seamlessly with parents
- The connection between school and home is vitally important and by providing greater communication we can strengthen that connection

WPS Portal

- Thanks to our partners at EDUNET, we have developed a parent friendly portal that will be a one-stop shop and make choosing the right device and optional accessories for your child simple and time efficient.
- Included in this portal are multiple options for suitable devices. The following slide will help you determine which one is best for you.
- <https://whittleseaps.technologyportal.com.au/>
- Access Code: **WhittleseaPSBYOD**

Landing Page

The image shows a landing page for the Edunet Parent Portal. The header is blue with the 'edunet' logo and the text 'Edunet Parent Portal'. Below the header are four main sections: 'PURCHASE', 'CHECK STATUS', 'WARRANTY/INSURANCE', and 'F.A.Q.'. Each section has a colored header and a white content area with a corresponding button at the bottom.

Enter the below information to check the status of your order

Order Reference

Parent Lastname

VIEW ORDER

WARRANTY/INSURANCE

Something gone wrong with your device? Simply register your details and a description of the fault. We are here for you.

LOG WARRANTY JOB

Had an accident? If you purchased our optional insurance, you're in good hands! Dropped. Lost. Stolen - Chocolate Milk! No problem

LOG INSURANCE CLAIM

F.A.Q.

What is Insurance?

You can choose to purchase insurance for your device which covers any Accidental Damage including damages from your device being dropped and broken screens.

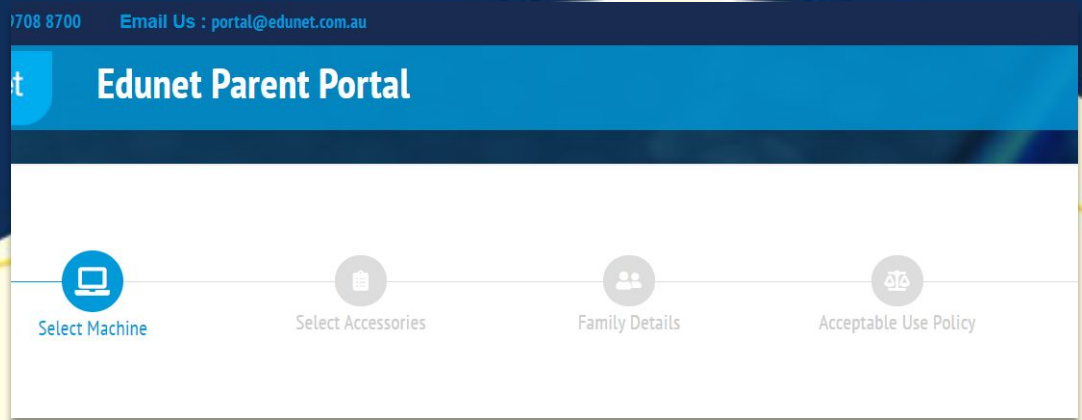

ENTER

Purchasing and Configuration

- Using a consistent provider with a portal allows for:
 - Greater consistency. Limited choice means less variety and technical issues
 - Each device comes prepared with a standard EduStar image including all the DET software
 - Fast turnaround for warranty claims and repairs
 - Delivery to a central location (school)

Available Devices

Link for live demonstration:

<https://whittleseaps.technologyportal.com.au/>

- Our Edunet portal provides families with four options of devices that can be purchased and used in our BYOD program.
- All of these options are currently used in our classrooms as both school owned and BYOD devices.

Approximately \$32.61 weekly with ZipMoney.

(Minimum package cost includes device, any compulsory items selected by the school (in red) and \$19.95 Postage & Handling)

Software Requirements

- Through the EduStar package from the Department of Education, students have access to a wide range of free software. This includes access to Microsoft Office; the latest versions of these applications are required to be installed prior to the commencement of 2024. Additional applications are available at the EduStar catalogue link below, these are optional downloads:
- <https://www.edustar.vic.edu.au/Catalogue/Pages/SoftwareHome.aspx>
- Students can access all the required software using the school username and passwords: '...@schools.vic.edu.au'
- Student devices purchased through Edunet will have the correct software installed on them.

Brief FAQ

- **Can my child bring another device not on the list?**

We strongly advise that families purchase through the EduNet Portal for all of the reasons that we have discussed. Where a family is not able to purchase from the Portal, we ask that they contact the school to discuss other options. Devices must have the windows operating system – Apple and Chrome devices are not supported

- **What if something goes wrong?**

EduNet provide provide a 3-year on-site warranty as part of the WPS Portal Package.

Brief FAQ

- **Will students without a device be disadvantaged?**

There will be no reduction in the current experience for any child from 2024. Those who can't / won't join the program will still have access to shared WPS devices as they do at present. They may not have immediate access to a computer, and may need to share devices in class.

The experience is enhanced for those who have their own, personally configured device that they have 1:1 access to both at school and home.

- **What about security?**

WPS will continue to implement organisational changes to support the security and safety of devices, but ultimately this is the child / parent's responsibility. Home and Contents Insurance is highly recommended.
